About Us

Parenting and Family Literacy Centres provide a place where parents/caregivers and children from birth to six years of age can play and learn together in their local school.

Each program offers a variety of fun activities and events for children while engaging parents in their child's learning. The play-based program builds on children's natural curiosity and desire for exploration while helping them learn about the world. A healthy snack is provided for children and coffee and tea is available for adults.

“Lots of amazing fun activities to stimulate the children's minds... It's also a great opportunity to meet others in your community, which creates friendships not only for the children but adults too!”

- Luana, mother to 3-year-old Kyleah and 11-month-old Jonah

The Guiding Principles of Family Support

- ✓ Family support programs are open to all families, recognizing that all families deserve support.
- ✓ Family support programs complement existing services, build networks and linkages, and advocate for policies, services and systems that support families' abilities to raise healthy children.
- ✓ Family support programs work in partnership with families and communities to meet expressed needs.
- ✓ Family support programs focus on the promotion of wellness and use a prevention approach in their work.
- ✓ Family support programs work to increase opportunities and to strengthen individuals, families and communities.
- ✓ Family support programs operate from an ecological perspective that recognizes the interdependent nature of families' lives.
- ✓ Family support programs value and encourage mutual assistance and peer support.
- ✓ Family support programs affirm parenting to be a life-long learning process.
- ✓ Family support programs value the voluntary nature of participation in their services.
- ✓ Family support programs promote relationships based on equality and respect for diversity.
- ✓ Family support programs advocate non-violence to ensure safety and security for all family members.
- ✓ Family support programs continually seek to improve their practice by reflecting on what they do and how they do it.
