First Steps

SYNERGY has passionately been preparing candidates since 1995 and highly recommends that they begin **Audition Preparation Sessions** a minimum of 1-2 years prior to the audition (depending on the student's natural abilities and the level of study in their field) This method will ensure the preparation is easier and cost effective.

Hopeful candidates without experience in formal lessons are encouraged to contact the Academy as soon as possible after their information session.

"Miracles can come true when you truly believe"
SYNERGY will help create a "Fast Track" plan of action and immediately schedule private lessons to help students reach their highest potential at their audition.

SYNERGY also offers Specialized Workshops for candidates who wish to simply brush up on audition requirements and get adjudicated on their work.
