

HOT WEATHER PLAN

Please see below for Metropolitan Andrei School's plan to promote comfort and safety for our students during hot weather:

1. All students are encouraged to:
 - wear light, layered clothing, including a hat while outdoors
 - stay in shaded areas when possible, and maintain activity level to a minimum when outside at recess
 - bring their own supply of water (preferably in a reusable canister). Students are encouraged to drink extra water in times of high heat. Water, of course, is also available throughout the school at our water stations, and is available to students on an "as needed" basis
2. Fans are available in each of the classrooms.
3. The school will monitor daily heat advisories, and will adjust outdoor activity schedules as necessary.
4. Classes will rotate to make use of cooler areas of the school, such as the library.
5. All staff have received Peel Region's *Hot Weather Guidelines*, which includes information on monitoring students for any signs or symptoms of heat-related illness.

Thank you for your support in helping us to promote the comfort and safety of our students during this hot spell, and please contact us at the school if you have questions or concerns.
