The following asynchronous March Break resource has been curated for the purposes of student engagement and home entertainment.
This resource is intended to provide self-directed learning opportunities for students during the March Break and are intended for entertainment purposes.

This resource includes content areas at various entry points of learning: literacy, mathematics, virtual field trips, movement activities, keyboarding and more.

The interactive resources begin on page 9.
Many of the resources link to materials or websites operated by external organizations. These links are provided as a convenience and for informational purposes only and do not constitute an endorsement of any external organization or information found on their site. DPCDSB is not responsible for advertisements or images displayed by third parties.

Please note that the websites collected in this resource are not currently DPCDSB approved and should be used at the family's discretion.

Some of the websites included may require enabling Adobe Flash Player or cookies on the device.
• The concepts within this e-resource are divided by a title or concept.
• Within each theme, “concept” images of arcade games are present.
• Click on the images throughout each page to be directed to e-resources and websites.
• The pages include choice-based activities to encourage independent exploration.
To return to the home page, click the home image on the page.

When a site is launched, click the back arrow in the web browser to return to the resource.

Any images that have a star image 🌟 will require that a free account be created by the user.

Enjoy and have fun!
