

December 18, 2018

On November 9, 2018, the Dufferin-Peel Catholic District School Board (DPCDSB) provided details regarding the planned child care centre expansion at Father Michael Goetz Secondary School to add licensed child care spaces needed by the community for infant, toddler and preschool age children.

At that time, the DPCDSB advised that construction of this project was expected to take six months, commencing in January 2019. It was also relayed that this timeline was contingent on the Ministry of Education providing approval to proceed to tender in a timely fashion and that, as of November 9, 2018, the DPCDSB continued to await receipt of such approval.

As of today, the DPCDSB has yet to receive approval to proceed from the Ministry of Education. At this point, it is not possible to commence and complete the project within the originally scheduled timeline. In view of the preceding, the DPCDSB has placed this project on hold until such time as additional information and/or direction is provided by the Ministry of Education. Once that has been received, the DPCDSB will then review the information and determine next steps regarding the child care centre expansion at Father Michael Goetz Secondary School.

Updates regarding this project will continue to be provided as they become known.

*Please note that this and future Community Information Bulletins regarding the child care centre expansion project at Father Michael Goetz can be found on the Dufferin-Peel Catholic District School Board's website, [www.dpdcbsb.org](http://www.dpdcbsb.org), in the [About Us](#) section under [Planning and Operations](#).*
