

# STUDENT TRANSPORTATION OF PEEL REGION

## STOPR

### Preparing your child to ride the school bus

**Student Transportation of Peel Region (STOPR)** is a consortium, operating on behalf of both the Peel District School Board and the Dufferin-Peel Catholic District School Board, which provides busing service for thousands of students each year.

Riding the school bus is a new experience for kindergarten children and some French Immersion students. The following information will help you prepare your child to ride the school bus.

#### **Who may ride the school bus?**

Kindergarten and grade 1 students who live more than one kilometre from the school, and eligible French Immersion students, qualify for transportation.

#### **What you should know**

- Because central pick-up and drop-off locations are used, children have to walk from their home to the school bus stop.
- Your child's school will inform you of bus times and bus stop locations. Schedules are approximate, so students should be at bus stops at least five minutes before the designated time.
- Sometimes bus drivers cannot enter new subdivisions because of construction activity. In this situation, you are responsible for taking your child to the nearest bus stop.

#### **Meeting your child at the bus stop**

You are responsible for your children before they step on the bus and the moment they step off the bus.

If no one meets your kindergarten or grade 1 child at the bus stop, the bus driver is required to take the child back to school.

#### **Special safety features**

The following safeguards will assist kindergarten students during the first few weeks of school:

#### **Primary protocol for transported students**

The primary protocol for transported students has been implemented in order to enhance the safety of kindergarten and grade 1 students who are transported home by bus at the end of the school day. All junior kindergarten, senior kindergarten, and grade 1 students must be met by a parent/caregiver at their designated stop. Students who are not met will be returned to the school by the driver at the end of the bus run or route. It is the responsibility of the parents to ensure that these students are met daily. In order for this procedure to be successful, we need the cooperation of school administration, bus drivers and parents.

#### **Identification tags**

The school will provide identification tags to kindergarten and grade 1 students identifying their school, bus run and bus stop location. As part of the process, this ensures that children get off the bus at the right place. Please make sure that your child wears the identification tag. Students beyond the grade 1 level may be provided with ID tags at the discretion of each school administration.

#### **Bus numbers**

Each school bus has a run number posted in the window.

#### **Bus stops**

Bus drivers will also call out the name of each bus stop to help children get off the bus at the correct stop. Please make sure your child knows the name of the bus stop.

#### **Safety Training**

All elementary school students will be provided with a bus safety program which includes a bus evacuation drill during October/November. This program is provided by the contracted bus operators during the school day.

## **Tips to help make your child's bus ride safe**

You can help keep your child safe on the bus by sharing the following tips with them:

### **At the bus stop**

- Stay back from the road
- Wait quietly in line when getting on and off the bus
- Stay back until the bus stops, its lights start flashing and the door opens
- Get on and off the bus one at a time
- Wait your turn to get on the bus – don't push or shove
- Always look both ways before crossing in front of the bus
- Speak quietly to your friends and try not to raise your voice
- Keep your pet at home – pets at the bus stop may distract children from getting on the bus

### **On the bus**

- Sit properly in your seat
- You can talk to your friends
- Stay in your seat – never stand when the bus is moving

### **When you leave the bus**

- Look in all directions before you cross the street
- Use your eyes and ears before you use your feet
- Go straight home – don't make any stops along the way
- Walk – don't run
- Stay three metres (the length of a car) or more from the front of the bus

### **Things to remember**

- Your name, address and telephone number
- Your school and teacher's name
- Your bus driver's name

- If it is dark on the way to or from the bus, make sure your child wears light-coloured or reflective clothing to make sure he or she is visible
- Make sure your child knows what to do if he or she misses the bus – come back home or, if at school, report to a teacher – and never accept a ride from a stranger

### **You can help keep your child safe**

Plan your schedule so that your child does not arrive at the bus stop too early – your child may be tempted to wander or get into mischief.

### **Student behaviour affects bus safety**

The behaviour of each student on the bus directly affects the safety of others. The bus driver reports incidents of poor behaviour on the bus in writing to the school principal. Depending on the seriousness of the incident, the principal may issue a warning to the student, speak to parents, suspend bus privileges or take other disciplinary action.

### **Young Rider Orientation**

Included in this package is an invitation for you and your child to attend the Young Rider School Bus Orientation Program on Saturday, August 24<sup>th</sup>, 2019.

### **For more information**

For more information, please access our website at [www.STOPR.ca](http://www.STOPR.ca) or contact our office:
