SOARING WITH CHRIST

November 2, 2020

Dear St. Evan Staff and Families:

Further to my letter to you yesterday, Peel Public Health is investigating an additional COVID-19 exposure where a person who was recently in our school has tested positive for COVID-19.

Peel Public Health will contact anyone determined to be a close contact. Only students and staff who are symptomatic or advised by Peel Public Health need to get tested.

Our building is safe and open for students and staff. The school has been cleaned many times since the exposure as part of our enhanced cleaning protocol. Peel Public Health will let us know if any other measures need to be taken to reduce the risk of transmission.

Keeping you informed is part of our commitment to you. Keeping personal information private, including the identity of the persons, is part of our commitment, too. I know this may frustrate you, but this is also part of Ontario's privacy laws. It protects anyone already sick or at risk.

Please visit [Peel Public Health's web site](#) for information on how they are working with the DPCDSB to help keep staff and students safe at school and on transportation.

As a faith community, we must continue to take care of ourselves and each other. We can do this by following the advice of public health agencies and government officials. Please review their advice on how you can protect yourself and others from COVID-19.

Sincerely,

J. Amodeo

Principal
