500 Dougall Avenue, Caledon, Ontario L7C 4C5  
(905) 843-6159

*SOARING WITH CHRIST*

---

March 7, 2021

Dear St. Evan Staff and Families:

Peel Public Health is investigating a COVID-19 exposure where a person who was recently in our school has tested positive for COVID-19. As part of its investigation, Peel Public Health has directed individuals from two of our classrooms to self-isolate at home.

**Peel Public Health will contact anyone determined to be a close contact. Only students and staff who are symptomatic or advised by Peel Public Health need to get tested.**

The identities of the impacted individuals are protected under privacy legislation and cannot be shared. As mentioned earlier, those who are at risk due to this exposure have already been identified.

Although there is no impact on any staff and students who are not contacted by Peel Public Health, we want to make sure the school community remains informed. As always, we will follow any direction from Peel Public Health to keep our schools safe.

As a faith community, we must continue to take care of ourselves and each other. We can do this by following the advice of public health agencies and government officials. Please review their advice on how you can protect yourself and others from COVID-19.

For a listing of current positive COVID-19 cases in DPCDSB schools and facilities, including closed classrooms or closed schools, visit the DPCDSB's [COVID-19 Advisory webpage](#).

Sincerely,

J. Amodeo

Principal
