

Peel Public Health completed dental screening for participating students

Thank you for your support. A form with the results of the dental screening was sent home with every child screened.

- If a child is identified with a dental condition requiring immediate dental treatment, an additional form will be attached for parents to fill in and return to Peel Public Health. The parent may be contacted by a dental staff member.
- A re-screening may be required.
- Please read the form(s) carefully.

For more information, call Peel Public Health at 905-799-7700
