School Plan Re: Heat Advisory and Reminders

As you are aware the temperatures for the next few days are going to be quite warm. We will be monitoring the weather at each break period and will inform whether or not students will be outside at recess breaks. If students do go outside it will be on a modified schedule. We are encouraging the students to tone down hard play (i.e., running activities) and to stay hydrated. Students are encouraged to drink water, bring a water bottle, wear appropriate cool clothing, if possible wear a hat, sunglasses, sunscreen.
