

Celebrating Business Excellence at St.Martin Black History Month

Alexia demonstrates the characteristics of excellence in **Business Leadership at St. Martin**. She is a strong academic student who works hard and excels in math and literacy. She collaborates well with her peers and demonstrates independence in order to achieve her academic goals. Her leadership and creativity shines in project-based assignments.

Alexia joined DECA in her Grade 10 year as the only Junior Member of the Chapter. She always gave 110% to her team and competed at the Regional level where she qualified for DECA Provincials in February 2019. Along with DECA competitions, she participates in fundraising events for our DECA chapter and annual community events such as Worlds Downs Syndrome Day. In September 2019, she became VP for our DECA chapter.

We are celebrating Alexia today as she has shown her commitment to reaching her academic goals as an honour roll student and excels in extracurricular involvement through clubs such as DECA and SAC. Above all else she is; kind, honest, persistent, forward thinking and exemplifies the qualities of excellence in Business Leadership.
