

Welcome to the RFH Mathematics Department.

To help your child be successful, we strongly recommend that every student come to class each day with the following materials.

1. A **three-ring binder** divided into three sections
 - a. Notes
 - b. Homework/Practice
 - c. Tests/Quizzes/Assignments

*Please, no notebooks or duotangs.
We suggest having a separate binder strictly for math.
2. A **scientific calculator**
We recommend a “Sharp EL-531XT” or something comparable.
NO Graphing Calculators allowed.
3. **Pencils and Coloured Pens** (blue, red and black are fine)
(Notes are to be written in pen, homework/practice done in pencil)
4. A good quality **eraser**
5. A **ruler**. (You are not required to bring a geometry set unless specified by your teacher)
6. **Paper** (kept in your binder at all times)
 - a. Lined Paper
 - b. Graph Paper

Studies have shown that students who come to class prepared to learn are more likely to be successful and perform better. We look forward to working with you and your child on their math journey.
